

1993 Maule M-7-235B STOL airplane in excellent condition. This stunning aircraft features a vibrant yellow exterior with red accents and a well-maintained gray interior. Equipped with a super skylight for breathtaking views during your flights. With seating for five passengers and a convenient quick-release kit, you can easily remove the back seats to make room for camping gear or any other equipment you need.

The airplane has a total time of 2345 hours and a time since major overhaul of 462 hours, with the last annual inspection completed on 4/7/23. Compression check results show healthy engine performance (1. 74/80, 2. 79/80, 3. 72/80, 5. 75/80, 6. 75/80). It's worth noting that this plane has a history of damage from 2005 but has been professionally refurbished by Beegles Aircraft Services. Since then, the plane has been meticulously cared for. Before my ownership, Maule Flight did the annuals in 2020 and 2021, which included re-rigging and other maintenance. This Super Rocket is ready to take you on your next aviation adventure!
