

1965 Cessna P206 \$169,000 or best offer [Link](#) to pictures and logs.

S/N: 206-0072, AFTT: 5592, Useful load 1701 lbs , last annual: Sept. 2023

Ready to SKYDIVE! This is a professionally operated and maintained Cessna 206. Would be a great airplane for a dropzone just starting out or for a growing dropzone that needs another airplane to meet demand just in time for the season.

This 206 is a very comfortable ride to altitude for pilots and passengers. Newly installed seat padding for jumpers. Rosen visors, electric flaps and rudder trim. 285 HP and the McCauley 3 blade get you there quick.

For those interested in turning it back into a passenger airplane, the sale comes with everything you would need to turn it back into a passenger airplane. (Seats, belts, wheel pants, interior panels.) Headphone jacks for all six places still installed.

Complete logbooks. 2011-Present PDF available on request.

Engine:
