

Wipline 2350's

Year: 2005

Serial Number(s): 23081/23082

Estimated Total Time Since NEW: 800 hours

Wipline 2350 amphibious float package includes: 2350 amphibs, 172 rigging, gear advisory system, water rudder retract components, ventral fin, V-brace, depth gauge, hydraulic power pack, emergency hand pump system, walk wire seaplane propeller model 1A200/WFA8243 less than 500 hrs TT SNEW (2010), and all additional components removed from aircraft. Fresh water use (Midwest/Canada), floats are overall white with decals, making it easy to paint a new paint scheme! Located at KRNH, just outside Minneapolis for showing! Price \$79,000

Contact: Brittne Brink 651.402.0424 or bbrink@elevatedaircraft.com

Comments: A great opportunity to update older amphib floats or convert from straight floats to modern amphibious floats, the current manufactured Wipaie 172 float!
