This plane came to USA from the factory with only 3.7hrs. All logs since new. It was never used as a military trainer like many others Yak-52 out there. And yes it is 1996 so it was built with all the upgrades and the latest on its design. Heavy duty main spar design for +7 g's and -5 g's will do everything you wish in the correct hands. Original engine M14p is a 9 cylinder radial engine, Oil pan heater, 32 gl fuel tank (1.5hrs + 30min reserve at 120-130kts cruise.

I included on the sale, Airplane Jacks, Two seat parachutes, Piggy back Air Tank and lots of extra fittings, air valves, Air regulator, air filters, landing gear and flaps valves, Instrument gauges and Air Compressor .

In addition negotiable: auxiliary extended belly drop tank (20gl), bladder ferry fuel tank, Custom aluminum quick removable inside cabin fuel tank, spare main wheel set, spare tires, spare actuator seals, Full Set of 3 Landing Gear Actuator and the list continues.
