This aircraft is an absolute pleasure to fly—perfect for low-and-slow exploring, backcountry adventures, beach flying, and unforgettable summer evenings.

Reason for Sale - Mission change. After 3.5 years of building this dream aircraft, the need has shifted toward a true family traveling platform. This is a reluctant sale, and I have no doubt I'll own another AirCam again someday.

If you've been considering an AirCam, this is an opportunity to own a nearly new, professionally built example without the years of building time, complexity, and uncertainty.

Will consider trades for a Beechcraft F33A or A36 Bonanza.
