

2005 Searey Classic KIT
Serial #1MK380C
\$45,000.00 USD

One owner, this kit was purchased from Progressive Aerodyne, Inc in 2005. Construction commenced throughout the years, however as happens to many life gets in the way: raising children, moving into a different home, caring for aging parents (while aging oneself) and progress slowed and eventually stopped. Now the realization it's time for someone else to finish and fly it.

The airframe construction has been completed (minus the fuselage pylon) and some control surfaces have been covered in PolyFiber. The wings have been built, not yet covered. The instrument panel has been built.

This is the perfect stage of construction for someone to take over the build. The main components are open for inspection, the panel can be rebuilt to your liking (or finish as it is), electrical wiring has not been installed.

The engine has been stored in the garage, the instrument panel inside the house. The rest of the Searey is stored inside a trailer, which is INCLUDED in the sale.

Be sure to read carefully as this kit has a couple of coveted features that have not been offered in MANY years....

Engine Components:

- Rotax 912ULS, 100 Hp engine (purchased through Searey factory), new, not mounted, crate open, Serial #5644242
- Titan Exhaust
- 40 Amp External Alternator
- Oil Cooler
- Vacuum Pump (installed on gearbox)
- 3 Blade Ivoprop, with Prop Flange Nuts (Recommend installing a Warp Drive prop)

Airframe Components:

This kit includes a Carbon Hull, Carbon Turtle Deck, and Carbon Nose Deck. The Carbon Turtle Deck and Nose Deck have not been offered by the factory since 2006.

28 Gallon Aluminum Fuel Tank (not offered since around 2006!)

- ABS Panel Material
- Baggage Compartment
- Basic Instrument Pkg (analog engine instruments)
- Heater

- Deluxe Seats (sling seats)
- Electric Flaps Kit
- Hydraulic Brakes, both sticks
- Rudder Pedal Extension Kit
- Shoulder Harness Kit
- Whelen Strobe / Nav Lights
- Hydraulic Gear Retraction

Outside of Progressive Aerodyne, the following components were purchased:

- Icom A200 Comm
- Narco AT155 Txpdr
- AvMap GeoPilot GPS
- Sporty's SP-200 Handheld Com
- ACK-E01 ELT

Seller has a signed Bill of Sale from Progressive Aerodyne Inc, and a Bill Of Sale will be provided to the buyer from the seller.

For additional information, see the pictures starting on the next page.

Recreational Mobility is a 25 year, full time Searey distributor having built 46 Searey's, offering technical support and parts for owners.

Aircraft is located in Milwaukee, WI. To view the aircraft please contact me to make arrangements with the seller.
