

FOR SALE: 2024 Carbon Cub UL – N916LS

320 TTSNEW • Rotax 916iS Turbo • 320 TTSNEW • Hartzell Kestrel Constant-Speed Propeller • Fully Equipped Backcountry Performer

Built to Go Anywhere

Presented for sale is N916LS, a beautifully equipped 2024 Carbon Cub UL finished in stunning Bahama Blue and Arctic White. Powered by the 160 HP Rotax 916iS turbocharged, fuel-injected engine and turning a Hartzell Kestrel constant-speed propeller, this aircraft represents the latest evolution of Carbon Cub performance.

Whether your mission is backcountry exploration, grass strips, cross-country travel, or simply enjoying one of the most refined Cub experiences available today, N916LS stands out as an exceptionally capable and highly optioned example. Combining lightweight Carbon Cub handling with modern avionics, advanced engine management, and premium backcountry equipment, this aircraft is equally at home in remote terrain or on a long cross-country adventure.
