Description	<p>Fly to Oshkosh in this beautiful and brand-new RV-10! Fresh out of Phase I, this airplane needs nothing for you summer flying adventures. The Vans Aircraft Quick-Build kit was built simply and well to make for a light, straight flying, and quick RV-10.</p> <p>Equipped with a dual screen G3X touch, GTN650Xi, and the Garmin Auto-Pilot, long VFR and IFR flights are a breeze. Vertical Power VP-X electronic circuit breaker system makes for a clean panel install and a simple and reliable electrical system. A standby alternator, back-up avionics battery, and standby battery equipped G5 provide peace of mind with many levels of avionics redundancy. Enjoy the 170 knot cruise and 750nm + range in the comfort of the leather appointed cabin complete with overhead vents, lighting, and USB-A/C charging for the front and rear seats.</p> <p>With less than 100 hours, this is the newest and lowest time RV-10 out there and does not disappoint. Don't miss another minute of the 2026 flying season, and get yourself into this comfortable time machine!</p>
