

General	
Year	1989
Manufacturer	Vans
Model	RV-4
Asking Price	\$74,500
Registration	N8748C
Serial Number	1262
Flight Rules	VFR
Condition	Used – Good
Based At	S39
Total Time	1350
Number of Seats	2
Description	Nice flying, lightweight, quick RV-4. 170 knot cruise on 9.5 gph. It was just gone through spinner to tailwheel and made into a reliable flying machine after sitting for a few years. No corrosion and clean oil analysis. Some updates include an engine monitor, ADS-B out, electric flaps, and many control system parts refurbished. Come get it and fly it to Oshkosh!
Airframe	
Airframe Notes	Short gear, 0.016 skins, ~900 lb empty weight, inverted fuel.
Engine	
Engine	Lycoming O-360-A1A, Ellison TBI
Engine 1 Time	775 SMOH
Props	
Prop Notes	Sterba 70X82
Modifications/Conversions	
Modification/ Conversions	Electric flaps, API tailwheel.
Avionics	
Avionics	Kanardia Horis-80 with magnetometer, JPI EDM-700, u-Avionix tail beacon ADS-B out, KX 155, KT 76A, T-30.
Additional Equipment	
Additional Equipment	Shorai Lithium battery, FlyLed Belly Beacon, LED Nav Lights, QuadLock magnetic cellphone case holder/charger.
Exterior	
Exterior Notes	6/10 – Nice paint, but old with some normal wear and tear. The rudder has some skin cracks that have been patched. The port elevator has a crease in the skin – Cosmetic only and flies un-noticeable throughout the flight envelope.
Year Painted	1989

Interior	
Interior Notes	6/10 – Grey primed metal throughout, paint matching fabric upholstered seats.
Year Interior	1989
Inspection Status	
Inspection Status	Condition Inspection April 2026.
