The T303; Performance Meets Practicality

The Cessna T303 Crusader combines cabin-class comfort with outstanding twin-engine performance. Powered by counter-rotating TSIO-520 engines, it efficiently operates from low altitudes to the flight levels. Equipped with a Garmin glass cockpit, FIKI certification, and air conditioning, it offers capability in all conditions. With ample storage, leather club seating and an impressive useful load, the T303 is ready for any mission you have.
