

PIETENPOL

Nothing beats the rhythmic, low-RPM 'pucketa-pucketa' of a Ford Model A engine at idle before you push the throttle forward.

If you've been dreaming of pure, wind-in-your-face flying on a budget, this 1996 Pietenpol Air Camper delivers that classic 1930s open-cockpit magic for a wallet-friendly \$18,000.

This little Peety is an absolute joy in the air. Predictable, forgiving, and guaranteed to draw crowds at every grass strip you visit.

1996 Malcolm D Muir Pietenpol
Serial: 62751

Pietenpol Air Camper Offered For Sale
