

1946 Funk B85C – N81143 (Vintage)
\$26,500/Offer

Very nice and historic vintage aircraft for sale. N81143 was completely restored and reassembled by Rich Krogstad and Ted Miller (CFI/IA) of Spearfish, SD years ago. This Funk flies very well and is in excellent condition. It is straight, dry, and with a clean airframe and engine.

Currently located along the Redwood Coast (Eureka CA - EKA). This is a fairly simple aircraft with low maintenance and overall cost to own. Unique to the Funks is that the rudder attaches to the tail generally preventing/limiting ground loops. The plane easily takes off and climbs in short distances.

- Radios: VAL 760 comm radio
ELT
ADS-b Stratux receiver (use with iPad)
- Engine/Prop: Continental C90 (very nice upgrade)
Upgraded electrical wires.
McCauley propellor
Skytech electric starter conversion (very nice)
Gear driven alternator
- Airframe: 2840 TTAF (Completely restored, re-skinned, and repainted)
Comes with airframe jigs for wings and horizontal stabilizer (priceless)
Odyssey battery – works fine
New copper battery cables and connectors
Newer interior 9/10
USB outlet with digital voltage gauge
Dual wing landing lights – Not many Funks still have these.
Standard position lights
Unattached wheel pants – requires fabrication of wheel mounts. Template provided.
Cleveland disc brakes upgrade
Exterior paint 8/10
- Other: 20 gallons fuel (Auto/100LL)
80-90 knot cruise
Annual is August 2026, and next years will be completed prior to purchase.
Registration up to date.
