Fast, Efficient, Modern.

This 2023 Van's RV-10 is equipped with a touchscreen glass cockpit, autopilot, and a high useful load, making it an exceptionally capable cross-country aircraft. Built from a 2020 quick-build kit, it features a professional custom paint scheme that gives it outstanding ramp appeal. The leather interior is complemented by carbon-fiber accents and a custom instrument panel, creating a clean, modern cockpit. Actively flown since completion and well maintained, this RV-10 is a true turnkey aircraft for its next owner.
