

For Sale

2018 Husky A1C-180 \$288,500

724 TTSN one owner fresh annual NDH

Fully sorted and lots of spares. This is a good one. Very clean and kept in heated hangar. Given the paint scheme my wife named our airplane "Rudy" (think of Santa). We have thoroughly enjoyed Rudy having explored the large part of the western U.S. I have meticulously maintained Rudy and it has never had a mishap.

Full custom Garmin panel factory installed:
