

1958 Cessna 180A

Total Time: 3393.8
Engine TSMOH: 381.6
Engine TS IRAN: 11
Prop Time: 11 SNEW
Inspection Status: Annual due March 2027
Useful Load: 875 lbs
Condition: Used
Location: Justin, TX (16X)

Current Damage History: July 2023 plane veered off paved runway requiring excessive braking to avoid a drainage pond. As a result, the plane had just enough momentum to flip over onto its back. This was approximately 2 months following an extensive panel, interior, electrical, fuel system and other significant upgrades. As a result, the plane was completely rebuilt and further upgrades to the exterior were accomplished. All repairs were performed by an FAA Certified Repair Station, Flying T Repair Station in Anna Texas (www.flyingtrepair.com)

EVERYTHING LISTED BELOW IS NEW!

Interior:
