THRUST	Approx. 1,960 lbf	FUEL	Jet A / Jet A-1 compatible
LOCATION	Double Eagle II (KAEG), Albuquerque	STORAGE	Hangared / climate-controlled
EXTERIOR	10/10 — excellent paint	INTERIOR	10/10 — excellent condition
AIRFRAME TIME	Available with aircraft records	ENGINE TIME	Available with aircraft records

PERFORMANCE & SPECIFICATIONS

Crew	2	Length	35 ft 6 in	Wingspan	33 ft 9 in
Max speed*	~354 KTAS	Stall*	~70 kt	Climb*	~2,750 fpm
Published ceiling*	~36,000 ft	Permitted altitude*	23,000 ft	Range*	~480 NM
Structural limits*	+8 / -4 G	Endurance*	Up to ~2.5 hr	Wing area	~213 sq ft

*Representative published L-29 figures only. Actual operation is governed by the aircraft's specific configuration, FAA operating limitations, approved documentation, weight and atmospheric conditions. Published static/service ceiling figures should not be interpreted as an unrestricted operating altitude; L-29 operating data commonly identifies approximately 7,000 m / 23,000 ft as a maximum permitted altitude because stable engine operation above that altitude is not assured.

TRAINING / CHECKOUT

Designed from the outset as a military basic and advanced jet trainer, the L-29 combines tandem seating, rugged construction, stable handling and straightforward systems. N9035T is well suited for transition training, formation work and advanced jet familiarization.

Training and checkout can be arranged in Albuquerque, with DPE/check-airman availability in Santa Fe. Training is available separately and is not included in the purchase price.

RACE & PACE-PLANE CAPABILITY

Lucky 13 is an active Team Zia Jet Racing aircraft and is representing the team at the **Second Annual Roswell Air Races** as either a race aircraft or pace plane. This is not simply a static warbird: it is being actively flown, maintained and prepared for the jet-racing environment.

CHASE / FLIGHT-TEST PLATFORM

The two-seat configuration, visibility, useful speed envelope and military trainer heritage make the L-29 a practical platform for chase operations, flight-test support, formation work, observation, air-to-air photography and experimental aviation support, subject to applicable FAA operating limitations.

WHY LUCKY 13?

10/10 exterior • 10/10 interior • Hangared • Well maintained • Actively flown • Trainer capable • Race capable • Chase capable. N9035T offers a buyer a clean, mission-ready L-29 with an active operational history and local training/check-out support available.
