DESCRIPTION

ClearBlue Aero is proud to present this meticulously maintained 1982 Cessna 182R with a fresh top overhaul, 3-bladed propeller, new interior, and more! With 7,900 hours on the airframe, 400 hours SMOH on the engine, 10 hours since top, and long-range Flint Aero Aux tanks, this aircraft is perfectly positioned for years of reliable operation. N9986H stands out as an exceptional example of the legendary Skylane lineage, offering the perfect blend of performance, stability, and utility. Equipped with mixed/upgraded avionics and full ADS-B compliance, this aircraft is ready for cross-country missions or local flight operations immediately. Featuring an impressive 112-gallon fuel capacity, N9986H provides the extended range and endurance necessary for any adventure. This is a premium opportunity to own one of the most capable piston singles ever produced. Contact ClearBlue Aero today to schedule your viewing.
