A Modernized Cessna 310 with Desirable Upgrades

This recently refurbished 1966 Cessna 310K features a modern glass cockpit, air conditioning, and excellent ramp appeal thanks to its refinished paint and interior. Combining low-time engines with modern upgrades and a nearly 1,800-pound useful load, this Cessna 310 is an ideal IFR cross-country aircraft, multi-engine time builder, or versatile platform for any mission you have in mind. Professionally flown & maintained, this aircraft is turn-key and ready to fly.
